New Zealand Donates Tractors to North Korean Cooperative Farm
August 29th 2015
Press Release from NZ-DPRK Society

In a ceremony earlier this month six small two wheel tractor with trailer units were presented to the Sambong Cooperative NZ Friendship Farm, Pyongyan Province, North Korea.

The ceremony was attended by three Kiwis and seven Australians who were visiting North Korea to take part in events commemorating the end of WWII, or Liberation Day as it is known as in the Koreas.

The tractors were purchased by the NZ DPRK Society with money provided by the NZ Ambassador to North Korea’s Head of Mission Fund.

Located 40 minutes NE of Pyongyang, the 900 ha. farm, home to some 2,000 people, is intensively cultivated and produces rice, maize, potatoes, soya bean, barley, vegetables, pip and stone fruits.

The tractors will be used for transporting inputs such as fertiliser and compost, as well as bringing in harvested produce.
